ALPHA ICEPACK® FOOD INDUSTRY S4

Outstanding thermal insulation in Food Industry

FEATURES

- According with EN ISO 20345:2011
- (S5+CI+SRA);
- Easy to clean and desinfect;
- Removable insole;
- Excellent thermal insulation down to -70°C/-94°F;
- Hydrolysis resistant.

Alpha AirTech®

Alpha AirTech® is an exclusive Dikamar® formula that combines technology with high-quality materials. The Alpha Airtech® polyurethane formula is made up of millions of tiny air bubbles that allow air to circulate easily between them. This formula makes the boots more durable, lighter and provides exceptional thermal insulation.

Keep your feet in action with **Alpha AirTech®**

PACKAGING: 5 PAIRS PER BOX

COLORS

DK.FT.06.10/04_JUN2025

PU

-70°C

Textile lining

Easy pull-off

Energy absorbing heel

Sole resistant to oils, fats, acids and organic solvents

Excellent protection on icy surfaces

Slip-resistant and antistatic sole

Steel midsole with drilling protection of 1100N

Steel toecap protection at an impact of 200J and compression resistance under maximum load of 15kN

CLEANING INSTRUCTIONS

- Avoid leaving the boot dirty for too long. Clean your boots after each use with water, using a soft brush and mild detergent.
- Rinse off any remaining dirty and detergent with water.
- Regularly clean and replace the insole (if used) to prevent bacterial growth. When replacing the insole, make sure it matches the original one.
- Let your boots dry naturally and in a well-ventilated area, away from direct heat or sunlight.
- Always remember that correct and consistent cleaning helps to extend the life of your boots.
